

PROTECTING THE WORLD'S FIREFIGHTERS

Media Release

16 November 2016

BRISTOL UNIFORMS AT FOREFRONT OF PPE

Bristol Uniforms is a leading designer, manufacturer and supplier of protective clothing, meeting the diverse needs of emergency services personnel around the world.

Working with leading international fibre and fabric manufacturers including WL Gore, PBI Performance Products and DuPont, Bristol's in-house design teams continue to develop innovative and progressive garments offering maximum safety, flexibility and comfort.

Bristol has had a strong presence in the Gulf region for more than 40 years, through a well-established network of distributors.

At this year's Intersec, Bristol will be exhibiting its broad range of PPE solutions supplied within the region. These include XFlex structural firefighting garments with a Gore Crosstech moisture barrier including Gore Parallon and Hainsworth Titan 1220 outer layer, supplied in Paris Blue to Qatar Civil Defence, and Desert Tan to UAE Civil Defence.

Also on display will be Ergotech Action 2 fire coats and trousers, also with a Hainsworth Titan 1220 outer layer, currently supplied in Paris Blue to Bahrain Civil Defence, and a selection of light weight garments meeting NFPA standards which are supplied to Saudi Basic Industry users (SABIC) in Saudi Arabia.

In addition, Bristol will be unveiling its brand new Varde Technical Rescue garments, made with the latest Gore Pyrad Fabric Technology, which will be offered as part of the RescueFlex range. The new lightweight, breathable jacket and trouser combination provides protection against wind, water and flame, allowing firefighters to work in confined spaces or in adverse conditions for longer and in more comfort.

Editor's note:

Bristol Uniforms Ltd, founded in Bristol in 1801, has been, and remains, the UK's leading designer and manufacturer of protective clothing for municipal and industrial firefighters both in the UK and abroad with around 50% of sales being exported to over 110 countries across the world. The company, which also supplies specialist PPE for other emergency services, including the police and ambulance service, employs over 100 people.
